

EdD Student Learning Goals

1. Demonstrate advanced nurse educator competencies to enact increasingly complex faculty and leadership roles.
2. Facilitate curriculum design, development of courses, and evaluation of program and learner outcomes using evidence-based strategies.
3. Function as a change agent, innovator, and leader with the continuous pursuit of quality improvement in the nurse educator role.
4. Advance the scholarship of nursing education.
5. Conduct, evaluate, and synthesize theoretically guided research to further pedagogical knowledge in nursing education.
