

ABOUT THE MAJOR

The mission of the Bachelor of Science (B.S.) in Health & Community Wellness is to provide professional candidates for employment in a variety of settings to promote health and wellness. Through program courses and experiential learning experiences, students will be prepared to help people, organizations, and communities change lifestyle behaviors to minimize health risks and improve overall wellness. Students have the option of taking 15 credit hours of electives or choosing an approved minor such as Biology, Business Administration, Management, Psychology, Sociology, Nutrition Promotion & Education, Sport Management, Coaching, or others. Students must maintain a minimum of 2.0 GPA for good academic standing in this program on the General Track. Students also have the option to choose 1 of 4 professional tracks: Athletic Training, Physical Therapy, Occupational Therapy, or Dietetics. These tracks will prepare students to apply for a Master's or doctoral program in the designated field of study.

ABOUT THIS MAP

This program map is intended ONLY as a guide for students to plan their course of study. It does NOT replace any information in the Undergraduate Catalog, which is the official guide for completing degree requirements. Use this map to help plan and guide your experience at UWG, including academic, co-curricular, and discovery opportunities. Everyone's experience is different and activities in this map are suggestions. Always consult with your advisors whenever possible for new opportunities and updates.

Visit westga.edu/program-maps for the latest version of this major map.
