

ABOUT THE MAJOR

The B.B.A. program in accounting provides students with a high-quality liberal arts based educational foundation which will enable employment in a variety of fields including financial or management accounting in industry, government accounting, and/or public accounting positions in local, regional, or national organizations. A foundation is also provided which will enable students to continue studies at the masters level. The program is comprised of eight upper-level accounting courses totaling 22 hours and a three-hour capstone course in strategic management which is required of all B.B.A. programs. The accounting courses provide a general foundation in financial accounting, management accounting, personal income taxation, accounting information systems, and auditing. The required courses may be supplemented with electives in areas such as advanced accounting (consolidated statements and not-for-profit accounting), corporate taxation, financial statement analysis, and fraud examination. An internship course is also available to those students who secure a qualifying internship.

ABOUT THIS MAP

This program map is intended ONLY as a guide for students to plan their course of study. It does NOT replace any information in the Undergraduate Catalog, which is the official guide for completing degree requirements. Use this map to help plan and guide your experience at UWG, including academic, co-curricular, and discovery opportunities. Everyone's experience is different and activities in this map are suggestions. Always consult with your advisors whenever possible for new opportunities and updates.
