

## ABOUT THE MAJOR

Our B.B.A. in Management prepares students for a variety of different organizations and industries. Some management graduates actually start their own businesses, while others begin their careers in larger organizations. Additionally, students can focus their studies in one of our three concentrations available online, on-campus, or anything in between, for maximum flexibility: Human Resource Management, Supply Chain Management, and Small Business Management. We also encourage students to pursue professional certifications such as the aPHR or the Lean Six Sigma Green Belt.
