

University of West Georgia
DEPARTMENT OF MATHEMATICS
COLLEGE ALGEBRA
MATH 1111

Instructor: Mr. Robert Burnham
Email: rburnham@westga.edu Classroom: 1200 Technology Learning Center
Office: 113 Boyd Building, in Carrollton Class time: MW 3:30 pm – 4:45 pm
116 Newnan Center, in Newnan
Phone: Office Hours: MWF : 10am – 11am, Newnan Office
TR : 3:30pm – 5pm, Carrollton Office
Other Times by Appointment

Prerequisite: None

Required Text: *College Algebra and Trigonometry*, by Julie Miller and Donna Gerken (McGraw Hill Education)

ALEKS: All students in MATH 1111 are required to have an ALEKS Account. Go to www.aleks.com to purchase an account. The course code for this section is UM4GG-CWNMW

Course Description: This course is a functional approach to algebra that incorporates the use of technology. Emphasis will be placed on the study of functions, and their graphs, inequalities, and linear, quadratic, piece-wise defined, polynomial, rational, exponential and logarithmic functions. Appropriate applications will be included.

Learning Outcomes

Students should be able to demonstrate:

1. An understanding of the equations of circles and lines
2. An understanding of functions and how to graph functions
3. An understanding of operations on functions including function composition
4. An understanding of polynomial graphs, including intercepts and end-behavior
5. An understanding of how to find the zeros of a polynomial and how to factor polynomials
6. An understanding of inverse functions and how to find them graphically and algebraically
7. An understanding of the properties of exponential and logarithmic equations
8. An understanding of how to solve exponential and logarithmic equations
9. An understanding of how to solve a system of equation

EXPECTATIONS / REQUIREMENTS

Grade :

Your grade will consist of four Tests (12.5% each), ALEKS/Homework/Quizzes (25%), and a cumulative Final Exam (25%).

ASSESSMENT GRADING:

Course Grade = .25*(Hw/ALEKS/Quizzes)+.125*Test1 + .125*Test 2 +.125*Test 3 +.125*Test 4+0.25*(Final Exam)

When computing your Final Course Grade I will replace your lowest test grade with your Final Exam Grade, if the Final Exam Grade is higher than your lowest test grade.

Each student is allowed one and only one correction for one of the tests. The student may choose when and on which test to use this. The correction may not be applied to the Final Exam.

In the event of academic dishonesty the student forfeits these benefits.

Test Correction: Each student is allowed **one and only one** test correction. The student decides on which test to use this. Test Corrections will be due the following class period after the graded test has been returned.

Grading Scale :

Letter Grade	A	B	C	D	F
Grading Scale	90% to 100%	80% to 89%	70% to 79%	60% to 69%	0% to 59%

Calculator Policy: Graphing calculators equivalent to the TI 83, 84, 85, and 86, as well as scientific calculators are allowed for use in this course. The TI-89 and other equivalent calculators will not be allowed. **The instructor reserves the right to when you are allowed to use Calculators on in class graded assignments.**

ALEKS/Homework:

You will have a module due on ALEKS about every week (13 total). The module closes at 11:59pm on the due date. Do not wait until the due date to do the module – if the site is not available, you will get a 0 for that module.

Quizzes :

Quizzes will be based on homework assignments as well as information discussed during class. I will announce (in class) the exact date of quizzes at least one class period in advance. Quizzes maybe given in class or online in ALEKS.

Tests/Final:

There will be 4 Tests and a comprehensive final exam. I will announce (in class) the exact dates for each test at least one week prior to said test.

Final Exam: The Final Exam will be given on **Wednesday, Dec 6th, from 2-4pm**

Make-up Policy:

Make-ups are given in the event of a documented emergency only and only when notification is given PRIOR to the event (test, quiz, homework). Please contact me immediately.

Withdrawal Policy: The last day you can withdraw from this course is Friday **Sept 29th, 2017.**

Attendance: There is no attendance policy in this class. But you must come to class to success. Please do not arrive late or leave early.

Questions about grading: Questions about grading must be asked within one week of the graded works return.

University Closures: If the University is closed due to weather or for any other reason, any test, quiz, or graded assignment that may have been scheduled for that date will be administered on the next available class date. If an assignment is due that day, it will be due the next class.

UWG EMAIL POLICY: University of West Georgia students are provided a MyUWG e-mail account. The University considers this account to be an official means of communication between the University and the student. The purpose of the official use of the student e-mail account is to provide an effective means of communicating important university related information to UWG students in a timely manner. It is the student's responsibility to check his or her email.

CourseDen: Course materials will be posted on CourseDen. Please check CourseDen often for updates. You may log in to CourseDen at www.westga.edu or <http://webct.westga.edu>. If you are having problems logging into CourseDen, please go to <http://uwgonline.westga.edu/students.php> or call 678-839-6248

Accessibility Services:

Students with a documented disability may work with UWG Accessibility Services to receive essential services specific to their disability. All entitlements to accommodations are based on documentation and USG Board of Regents standards. If you need course adaptations or accommodations because of a disability or chronic illness, or if you need to make special arrangements in case the building must be evacuated, you should notify me in writing and provide a copy of your Student Accommodations Report (SAR), which is available only from Accessibility Services. I cannot offer accommodations without timely receipt of the SAR; further, no retroactive accommodations will be given. For more information, please contact Accessibility Services.

Math Tutoring Center (MTC): The Math Tutoring Center is located in 205 Boyd is available for any student who needs help. No appointments are necessary for the MTC. There are computers available in the MTC so students can get help with online assignments as well as homework assignments. The MTC is scheduled to open starting the second week. The hours for the MTC this semester are:

MW: 9am-8pm

TR: 9am-7pm

F: 9am-3pm

Center for Academic Success: The Center for Academic Success provides services, programs, and opportunities to help all undergraduate students succeed academically. For more information, contact them: 678-839-6280 or cas@westga.edu

Student Conduct:

Students are expected to abide by the guidelines detailed in the university catalog. Respect and courtesy are required of all students while in the classroom.

Cell Phones/Laptops:

You are expected to give your full, undivided attention while class is in session. Turn off or do not bring electronics that will distract you and the class. Electronic devices are not to be used during the lecture, unless permitted by the instructor.

COURSE POLICIES AND INFORMATION:

University Policies and Academic Support

Please carefully review the following Common Language for all university course syllabi at the link:

http://www.westga.edu/assetsDept/vpaa/Common_Language_for_Course_Syllabi.pdf

It contains important material pertaining to university policies and responsibilities. Because these statements are updated as federal, state, university, and accreditation standards change, you should review the information each semester.

For important policy information, i.e., the UWG Honor Code, Email, and Credit Hour policies, as well as information on Academic Support and Online Courses, please review the information found in the Common Language for Course Syllabi documentation at http://www.westga.edu/assetsDept/vpaa/Common_Language_for_Course_Syllabi.pdf.

Academic Dishonesty:

All students of the University of West Georgia are expected to follow the Honor Code as described in the student handbook (<https://www.westga.edu/administration/vpsa/assets/docs/2016-2017-student-handbook.pdf>). Any student who commits academic dishonesty will receive the following penalties.

1. For a first charge of academic dishonesty the student will receive a grade of "0" for said assignment. In the event of academic dishonesty the final exam grade will not replace your lowest test grade if it is higher. You will also forfeit your opportunity to complete a correction on a test.
2. For a second charge of academic dishonesty the student will receive a grade of "0" for the course.

Note that all incidents of academic dishonesty will be reported to the University.

IMPORTANT DATES:

First Day of Class:

Wednesday, August 9th

Drop Ends:

Friday, August 11th

Last Day to Withdrawal with W:

Friday, September 29th

Last Day of Class:

Friday, December 1

Final Exam Period:

December 2-8 (see The Scoop for specific times)

No classes:

Monday, September 4th (Labor Day)

Thursday, October 5th (Fall Break)

Friday, October 6th (Fall Break)

November 20th-24th (Thanksgiving)

****Note**** This syllabus provides a general plan for the course; deviations may be necessary

COURSE OUTLINE

MODULE	Sections	NOTE	Learning Outcome
1	Rules of Exponents and Simplifying Square Roots	from sections R.1, R.2 and R.3	
2	Factoring and Simplifying Polynomials and Ratios of Polynomials	from sections R.4, R.5 and R.6	
3	1.1: Linear Equations and Rational Equations		
	1.2: Applications with Linear and Rational Equations		
4	1.3: Complex Numbers		
	1.4: Quadratic Equations		
	1.5: Application of Quadratic Equations		
5	1.6: More Equations and Applications		
	1.7: Linear, Compound and Absolute Value Inequalities		
	TEST 1		
6	2.1: The Rectangular Coordinate System and Graphing Utilities		
	2.2: Circles		1
	2.3: Functions and Relations		2
7	2.4: Linear Equations in Two Variables and Linear Functions		1
	2.5: Applications of Linear Functions		1
8	2.6: Transformations of Graphs		2
	2.7: Analyzing Graphs of Functions and Piecewise Defined Functions	Even/Odd, Symmetry, Increasing/Decreasing only	2
	2.8: Algebra of Functions		3
	TEST 2		
9	3.1: Quadratic Functions and Applications		
	3.2: Introduction to Polynomial Functions		4
	3.3: Division of Polynomials and Factor and Remainder Theorem		4
10	3.4: Zeros of Polynomials		5
	3.7: Variation		
11	9.1: Systems of Linear Equations in Two Variables and Applications		9
	9.2: Systems of Linear Equations in Three Variables and Applications		9
	TEST 3		
12	4.1: Inverse Functions		6
	4.2: Exponential Functions		7
	4.3: Logarithmic Functions		7
13	4.4: Properties of Logarithms		7
	4.5: Exponential and Logarithmic Equations		8
	4.6: Modeling with Exponential and Logarithmic Functions		
	TEST 4
